Directions from North Campus

1. Walk south on campus to the Court of Sciences, past the Bomb Shelter eating area.
2. Enter the Life Sciences building (the south end of the Court). You will enter into a lobby with two elevators. Take an elevator to the 5th floor (as high as you can go).
3. On the 5th floor make a hard left turn (a U-turn actually) and continue down the corridor to its end. Pass through two sets of double doors and you are magically transported to the 6th floor of the Med Center.
4. The corridor makes a couple of jogs (to the right, the left and the right again, follow it to the double doors at 62-073. We share the space with the Computing Technologies Research Lab. Our unit is up the ramp to the left. The studio is the third door on your left.

The Director, Sean Crusier will usually come down to meet you at the entrance.

Good luck! And thanks for making the trek.
